DICOMPASS
CLOUD

Cloud PACS & Zero footprint HTML5 DICOM Web viewer

The fastest and the most simple and the most cost - effective solution for DICOM data storage and viewing.

All data is archived in DICOM format in the cloud-based archive Microsoft Azure certified for healthcare. It is safe and well suitable for daily routine as well as for long-term archiving.

Dicompass CLOUD communicates with all common standards, such as DICOM, HL7 and XDS. In case of need we are also able to connect other interfaces on request.

OUTSTANDING FREEDOM

You can easily access and exchange your data worldwide using cloud services. You can feel an oustanding independence using our Dicompass CLOUD solution. It is not just about the exchanging of DICOM data. Thanks to built-in tools you can easily do on-line consultation, second opinion request or on-line presentation.

FREEDOM OF DATA ACCESS

Dicompass CLOUD provides connection of all digital modalities into cloud storage system. Data from the modalities are transferred easily in DICOM format over software cloud connector running on common PC or using specialized hardware box solution. You are also able to upload easily to cloud PACS images from other sources [CD, memory cards, USB sticks etc.].

FREEDOM OF MODALITY CONNECTION

Using cloud services you can pay only for what you really need. You can leave costs for hardware maintainance, IT staff and software upgrades behind.

DICOMPASS
GATEWAY

WEBVIEWER & PACS ARCHIVE

Dicompass Gateway is new modern all-you-need system which covers requests for archiving, sharing, distributing and viewing image data in DICOM format.

Its completely revolutionary feature is the integration of the PACS archive, DICOM web viewer and other products into one environment. Dicompass Gateway is certified as a class II.b medical device.

- Stable
- Reliable
- Safe
- Scalable
- Modules
- Integration
- Prefetch

DICOMPASS GATEWAY
WEBVIEWER

A cross-platform DICOM web viewer supporting installation-free and traceless technology.

- No installation needed
- Central user management
- Fully customizable environment
- Online consultation tools

More information

DICOMPASS GATEWAY
ARCHIVE

Enables image data storage and distribution supporting most of SOP classes.

DICOMPASS
CAMERA

Snap it into DICOM!

iOS & Android version available

More information

Take a picture with your phone, tablet or camera with Android or iOS right to the DICOM format and send it online to Cloud PACS or any other PACS.

Dicompass Camera is a great tool for everyone who needs to follow up any visual patient information e.g. skin findings in dermatology, decubitus healing in nurse care, pre and post records in the plastic surgery, microscope image or macro image in pathology and posture images in rehabilitation and etc.
